

Helpful Information

Our goal is to help make your special day a joy to plan and even more fun in which to participate. We are happy to assist in the entire planning process, including ideas for the venue, advice on the type and quantities of food to serve, outlining the schedule for the reception, etiquette for that special toast, and decisions about specialty linens, unique décor, entertainment, flowers and the wedding cake. On the big day itself, our expert staff will set up the room, help keep the wedding reception flowing effortlessly along your timeline, and clean up everything so that you can leave for your honeymoon.
